DNT RETI STRUTTURATE SRL

January 2012

Respected Customers:

The new European regulation REACH (Registration, Evaluation and Authorization of Chemicals) concerning chemical products had entered in force on 1st June 2007. The objective of this regulation is to protect the environment, as well as the regulation of chemical and substances that are used and arriving into the EU region.

The first 15 substances that were in the group of Substances of Very High Concern were published by the European Chemical Agency (ECHA) in October 2008.

The second 14 substances that were in the group of Substances of Very High Concern were published by the European Chemical Agency (ECHA) in January 2010.

The other second 1 substance that was in the group of Substances of Very High Concern were published by the European Chemical Agency (ECHA) in March 2010. The third 8 substances that were in the group of Substances of Very High Concern were published by the European Chemical Agency (ECHA) in June 2010.

The fourth 8 substances that were in the group of Substances of Very High Concern were published by the European Chemical Agency (ECHA) in Dec 2010.

The fifth 7 substances that were in the group of Substances of Very High Concern were published by the European Chemical Agency (ECHA) in June 2011.

The sixth 20 substances that were in the group of Substances of Very High Concern were published by the European Chemical Agency (ECHA) in Dec 2011.

DNT is glad to inform you that none of our products contain any SVHC (Substances of Very High Concern) >0.1%.

DNT customers are herewith guaranteed to receive products respecting the latest EU regulations.

Our staff remains at your entire disposal for any further questions. Please do not hesitate to contact us sending a request to dnt@dntsr.com.

Thanking for your ongoing support, we remain Yours faithfully.
